CHENNAI

Chennai, formerly known as Madras is the capital of the Indian state of Tamilnadu. Located on the Coromandel coast of the Bay of Bengal, it is one of the biggest cultural, economic and educational centres in South India. The weather in February is very pleasant with an average day temperature of around 28°C. It is well connected to all parts of India by Air, Rail and Road.

The Organising committee of the 8th National Conference of SOCA welcomes you to Chennai. We look forward to your august presence at the conference. We anticipate your gracious participation in the various academic deliberations. As we endeavour to make this conference most memorable, we are also looking forward to making new associations and cementing our existing ones within the SOCA fraternity.

“MODERN EMBALMING TECHNIQUES”

ABOUT THE COLLEGE

Sri Ramachandra Medical College and Research Institute is ranked among the top health sciences colleges in India with a NAAC accredited "A" grade (CGPA of 3.62 on a 4 point scale). It was established by Sri Ramachandra Educational and Health Trust in the year 1985.

Sri Ramachandra Hospital is a 2280 bedded super speciality Hospital with state of the art infrastructure and equipment. The faculty are not only experts in their respective fields but through frequent faculty development programs, are constantly redefining their skills in healthcare & education.

DEPARTMENT OF ANATOMY

The full-fledged department of anatomy has experienced and motivated faculty, excellent infrastructure and facilities to impart high quality, clinically relevant, contemporary education in an experiential learning environment.

In addition to traditional teaching methods, the department endeavours to leverage emerging technologies in providing a blended learning environment via the dedicated MOODLE based e-learning portal. The state of the art Cadaver Bio-Skills Lab is a novel concept which provides formalin free, specially embalmed cadavers for honing and refining surgical skills.

ABOUT SOCA

With revolutionary advances in diagnostics and imaging, the subject of anatomy has expanded far beyond class rooms and dissection theatres. The Society of Clinical Anatomists (SOCA) is dedicated to promoting knowledge and research in the field of clinically relevant anatomy. The Society strives to provide a national platform for showcasing professional development and excellence in clinical anatomy, facilitate exchange of ideas and research amongst its members. Members of SOCA aim to bridge the gap between Anatomists and Clinicians and explore new frontiers of collaboration and research.
